Working Towards a Secure Future

The reconstruction of the Wastewater Lift Station strengthens the City's utility and drainage systems, providing a safer community for generations to come.

Reconstruction of Wastewater Lift Station C-2 will begin on November 28, 2016

Wastewater lift stations are facilities designed to move wastewater from lower to higher elevation.

Series of tasks to be completed:

- Installation of "Sheet Pile"
(A column of sheet metal that is driven into the ground to provide support for a structure).
- Excavation of the roadway
- Installation of a "wet well" structure
- Installation of submersible pumps
- Final restoration of affected roadway

Questions?

Communication is a priority for our construction management team. If any issues arise, please do not hesitate to contact us.

Project Manager

Ronald Desbrunes, P.E.

When is work expected to be completed?

- The above series of tasks are expected to be completed by the end of March 2017.

How will I be affected?

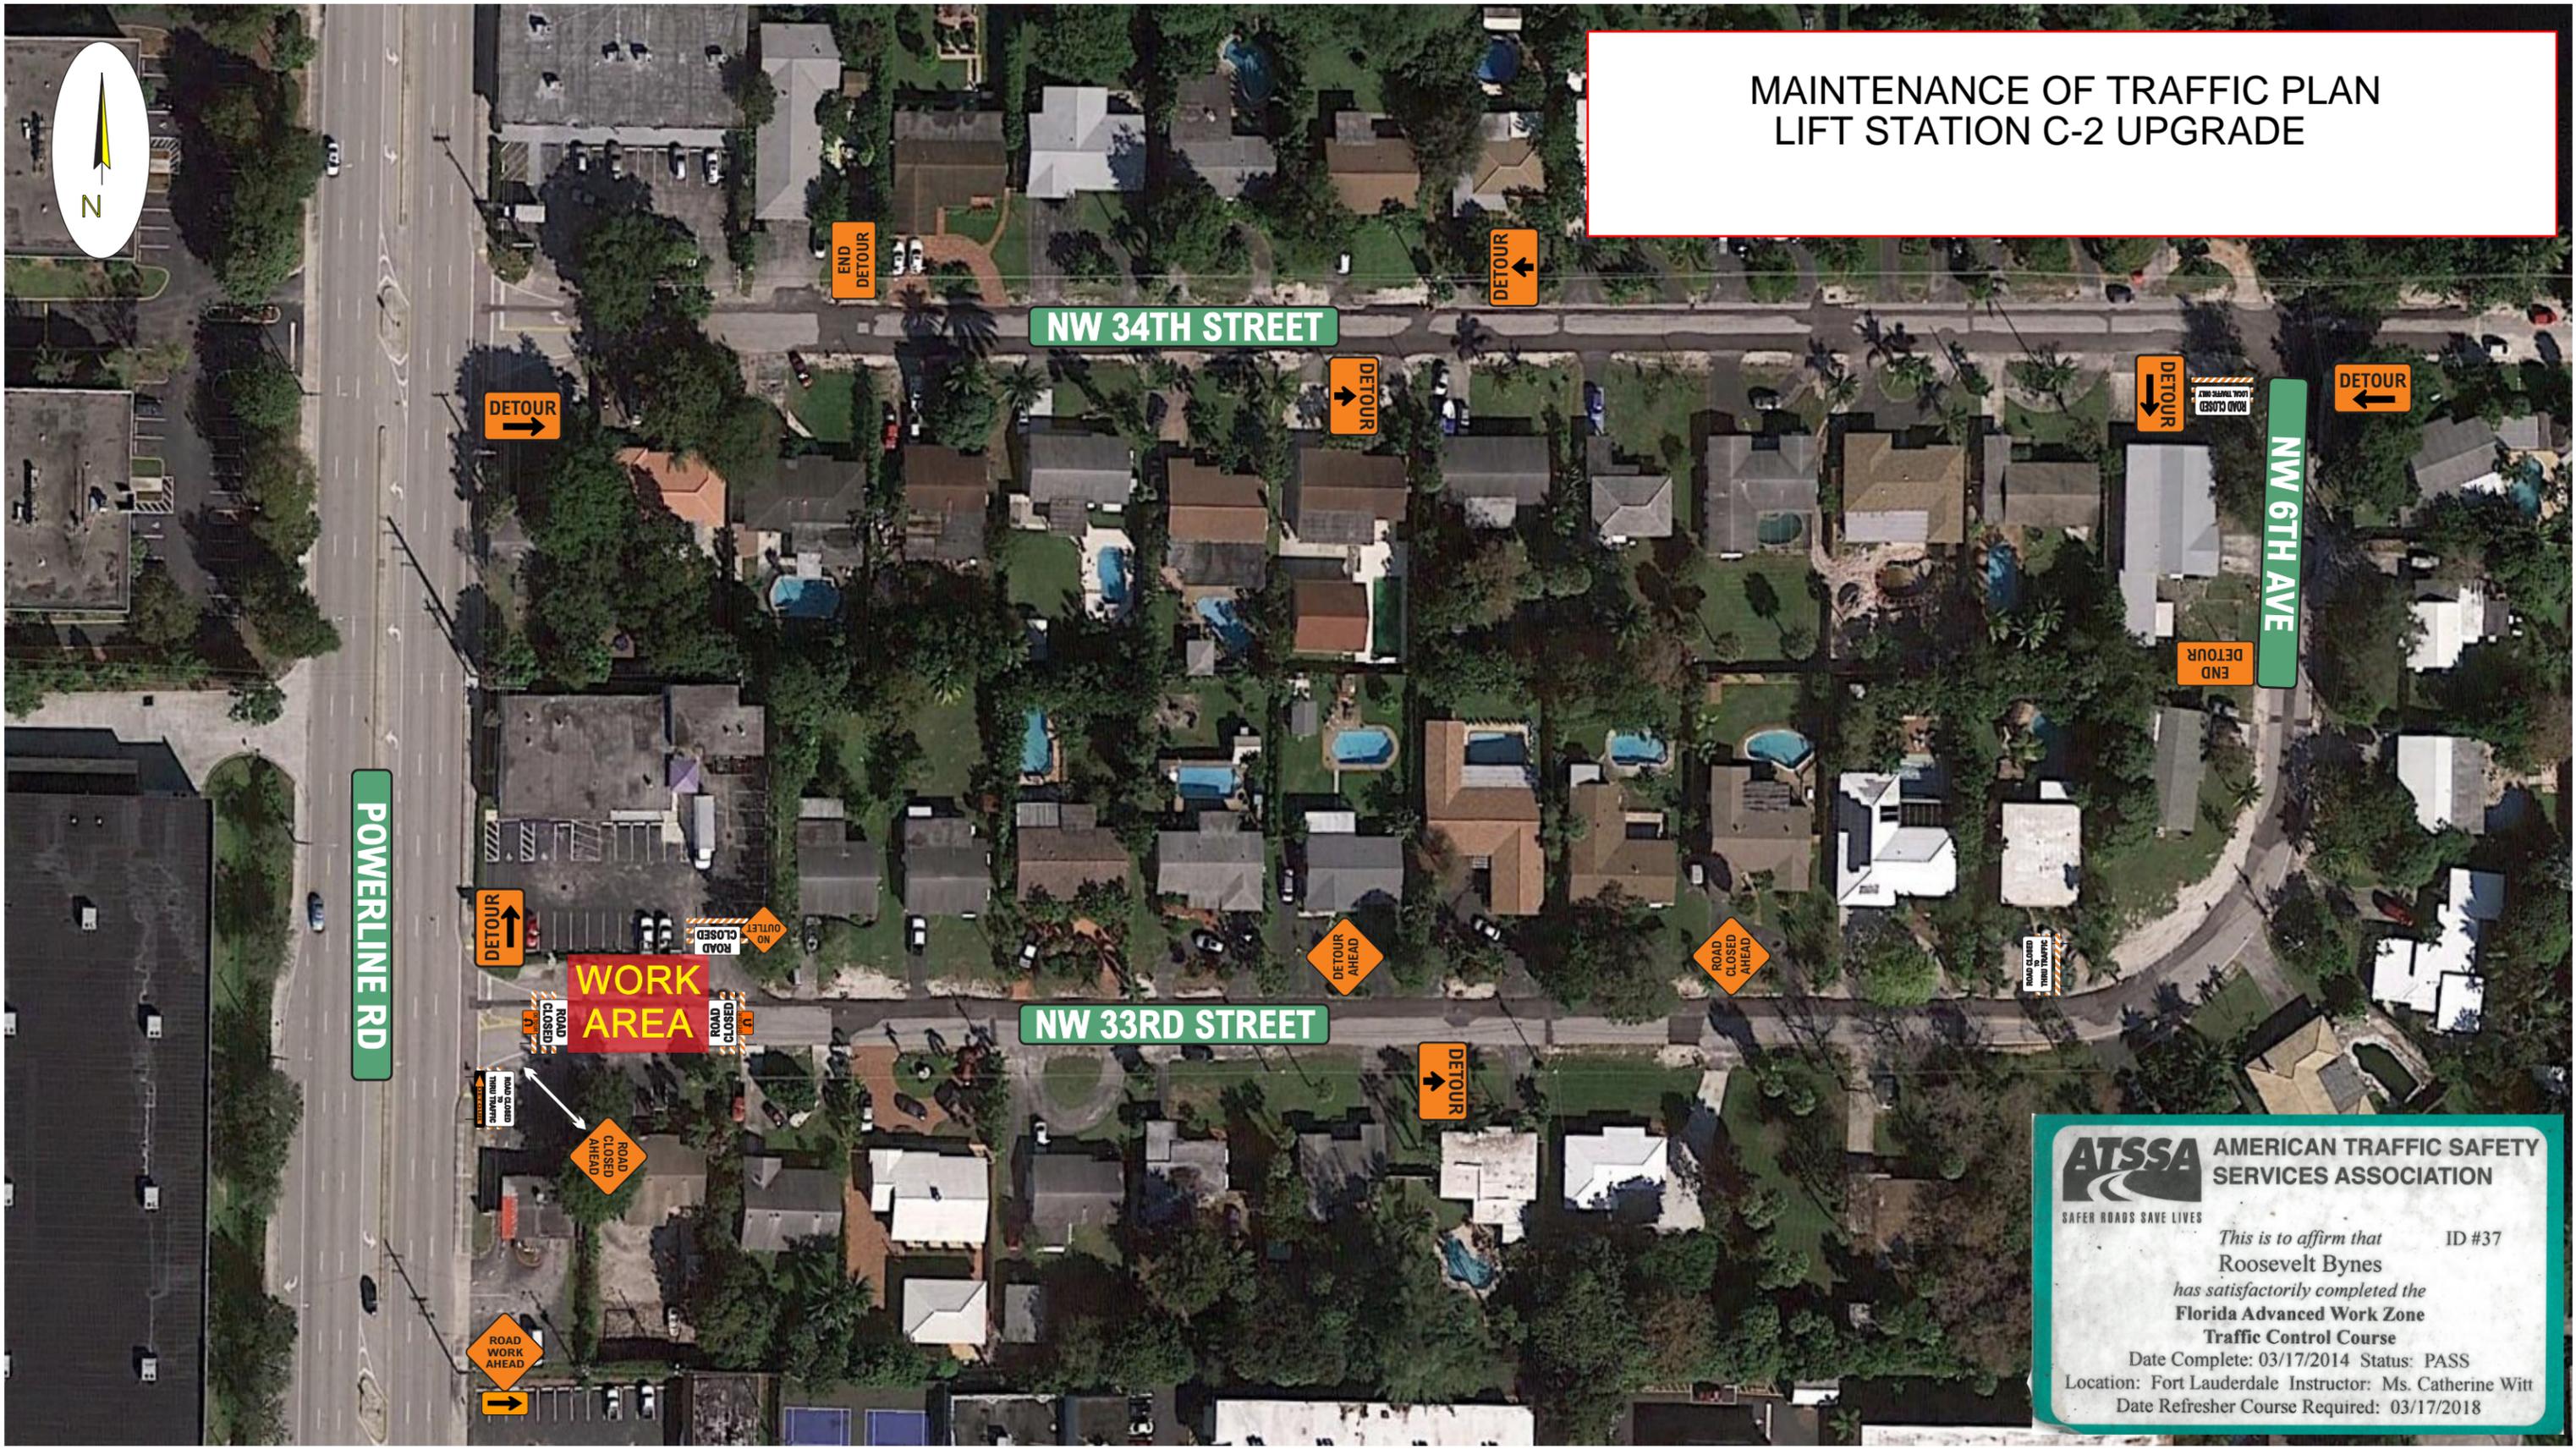

- **Businesses:** Customers will have access to businesses via Powerline Road.
- **Residential:** Access to residential areas will be via NW 34th Street.
- **General:** You will receive notification of any water interruptions at least **48-Hours in Advance**. **Water interruptions** will be scheduled at a day and time **most convenient** to residents and businesses.

THANK YOU!

Your patience and continued support is deeply appreciated as we work to enhance the quality of life here in Oakland Park.
