

RESIDENTIAL SWIMMING POOL, SPA AND HOT TUB SAFETY ACT

NOTICE OF REQUIREMENTS

I (We) acknowledge that a new swimming pool, spa or hot tub will be constructed or installed at

_____, and hereby affirm that one of the following methods will
(Please Print Job Address)

be used to meet the requirement of Chapter 515, Florida Statutes and Florida Building Code Section 454.

Please initial the method(s) to be used for your pool or spa:

- _____ The pool will be equipped with an approved **safety pool cover** that complies with ASTM F1346-91. **(Submit Manufacturer’s Specifications).**
- _____ A continuous, one-piece (child) barrier meeting the requirements of Florida Building Code 454.2.17 will protect the pool perimeter. The plans shall show the fence location and method of attachment, including one end that shall not be removable without the aid of tools. **(Submit Manufacturer’s Specifications).**
- _____ A combination of **non-dwelling walls and fences** (screen enclosure, child fence, masonry fence walls, chain link or wood fence, etc.) will protect pool perimeter. The plans must specify the type and location of all non-dwelling walls.
- _____ Any combination of protection which incorporates dwelling walls with openings directly into pool perimeter **and all windows and doors will be equipped with exit alarms complying with Florida Building Code, 454.2.17.1.9 (Submit Manufacturer’s Specifications).**
- _____ Any combination of protection which incorporates **dwelling walls** with openings directly into the pool perimeter **and all doors will be equipped with a self-latching device with positive mechanical latching/locking installed a minimum 54" above the threshold.** If this option is selected, submit plans showing all types and location of all perimeter protection. The plans must also show the location and type of all openings, and hardware type for each location. **(Submit Manufacturer’s Specifications).**
- _____ Where a wall of a dwelling serves as part of the barrier, a swimming pool alarm that, when placed in a pool, sounds an alarm upon detection of an accidental or unauthorized entrance into the water. Such pool alarm must meet and be independently certified to ASTM Standard F2208, titled “Standard Safety Specification for Residential Pool Alarms,” which includes surface motion, pressure, sonar, laser, and infrared alarms. For purposes of this paragraph, the term “swimming pool alarm” does not include any swimming protection alarm device designed for individual use, such as an alarm attached to a child that sounds when the child exceeds a certain distance or becomes submerged in water. (454.2.17.1.9)

In accordance with the Code, a final inspection of the pool project will not be approved without compliance with the Private Swimming Pool Safety Requirements, and upon expiration of the permit, the pool shall be presumed to be unsafe.

I understand that not having the above installed will constitute a violation of Chapter 515, F.S. and will be considered as committing a misdemeanor of the second degree, punishable as provided in Section 775.082 or Section 775.083 F.S. this form must be signed by the owner/agent and the prime contractor.

This form must be signed by the owner/agent and the prime contractor.

THE POOL SHALL NOT BE FILLED WITH WATER UNTIL THE FINAL ELECTRICAL AND POOL BARRIER INSPECTIONS HAVE PASSED, FBC 454.2.19.
